## Department Of Food Technology

### Mission

- To excel in teaching by offering technical/professional education imbuing ethical and moral values.
- To provide knowledge and skills in the areas of food processing, hygiene and safety of processed food products.
- To impart students with a vibrant technical knowledge to handle problems by collaborating with food industry.
- To promote the research and development activities of students to produce quality food products with the scope.

### Vision

To produce a new generation of incredibly talented and innovative food technologists who will be a centre of excellence for food technology education and research in society.

One individual may die for an idea, but that idea will, after his death, incarnate itself in a thousand lives.

Don't take rest after your first victory because if you fail in second, more lips are waiting to say that your first victory was just luck.

### National Webinar on Oral Hygiene

Faculty of Food Technology, Bhai Gurdas Institute of Engineering and Technology, Sangrur organized a national webinar on March 31, 2020 entitled “National Webinar on Oral hygiene”. The event was attended by the faculty and students of faculty of Food Technology. Er. Swati Priyadarshi and Er. Amandeep Kaur was the organizing secretary under the leadership of Dr. Syed Insha Rafiq, HOD Food Technology. Webinar includes oral health and systemic diseases, oral microbiome and antimicrobial effects of marine bromophenols. Moreover the webinar was focussed on COVID19. The event was found very informative and valuable. Discussions about the importance of oral health and disease protection have been done. The event was ended by the concluding remarks of Dr. Syed Insha Rafiq, HOD Food Technology. Vote of thanks was delivered by Er. Swati Priyadarshi, organizing secretary of the event.

## Webinar on Coronavirus Pandemic

The webinar provided a scientific basis for recommendations to prevent exposure to infectious agents based on real time, real world experiences as students, teachers, and staff are back to in-person learning. Faculty of Food Technology, Bhai Gurdas Institute of Engineering and Technology, Sangrur organized a webinar on “Coronavirus Pandemic” on May 11, 2020. The panelists presented model programs, presented data on the effectiveness of masking, physical distancing, and vaccination, and addressed ongoing challenges with older building infrastructure, proper ventilation and airflow, space for distancing, compliance with masking, and vaccine uptake. Lack of national consensus on school and training facility safety, combined with state-to-state differences, means that we need to remain diligent about keeping students, trainees, and staff safe.
