SEMINAR ON ARTIFICIAL INTELLIGENCE(AI)

Artificial Intelligence (AI) has rapidly become a game-changer in various industries across the world. AI refers to the development of computer programs and systems that can perform tasks that would usually require human intelligence, such as learning, reasoning, and decision-making. AI has been widely adopted in many sectors, including healthcare, finance, manufacturing, and entertainment.

PLACEMENT DRIVE

The department of Information Technology has organized a placement drive for providing job opportunities to the students.

Campus Recruitment allows students to earn a safe and secure future. Keeping in mind the importance of the placement, it is vital for a student to prepare adequately for these programs and ensure that they put their best foot forward.

Ample of students have been placed in the renowned company. The Director of BGIET, Prof.(Dr.) Tanuja Shrivastva has congratulated the students on the occasion.

INDUSTRIAL VISIT

An industrial visit is an excellent opportunity for students to gain practical knowledge and insight into the working of industries. Recently, Bhai Gurdas Institute of Engineering and Technology organized an industrial visit for its students to a nearby manufacturing plant.

During the visit, the students were shown various processes involved in the manufacturing of industrial equipment. The students were given a tour of the plant, where they witnessed the various stages of production, including casting, forging, machining, and assembly.

Overall, the industrial visit was a success, providing students with a hands-on learning experience and exposure to the industry. Such visits are crucial in bridging the gap between classroom learning and real-world applications, and Bhai Gurdas Institute of Engineering and Technology must be commended for organizing such an opportunity for its students.
