

BGIET
Department Of Food Technology

Volume 1 / Issue 7

Mission

- To impart basic knowledge in the area of food science, food processing and safety.
- To inculcate in-depth knowledge of Food Engineering and Technology with an ability to analyze, evaluate, design, create and integrate existing and new knowledge.
- To equip and enable students with conceptual, technical and managerial skills to transform the organization and society.
- To serve people, society and nation with utmost professionalism, values and ethics to make development sustainable and quality of life.

Vision

To achieve excellence in quality education, competent technologist, innovation and entrepreneurship that will benefit globally food processing sector and society.

Strength does not come from winning. When you go through hardships and decide not to surrender, that is strength

Don't take rest after your first victory because if you fail in second, more lips are waiting to say that your first victory was just luck.

Faculty Editor

1. Er. Suhail Ahmad Bhat
Assistant Professor,
Dep. Food Technology

Student Editor

1. Nikhil Kumar (2002254) FT- 7th Sem.
2. Geoffrey Shylla (2002251) FT- 7th Sem.

FROM THE HOD'S DESK

I am happy to note that the Department of Food Technology is releasing its Newsletter enumerating the various activities and achievements of our faculty and students. The department endeavors to produce confident professionals tuned to real time working environment. The department offers excellent academic environment with a team of highly qualified faculty members to inspire the students to develop their technical skills and inculcate the spirit of team work in them.

Dr. Syed Insha
HOD

We are pleased to share with you the second issue of the newsletter for the month of July to December 2022 (2022-23). I would also like to take this opportunity to thank the contributors of the newsletter and faculties for their constant support in making this newsletter a success. We wish to engage and encourage more experts working in the regulatory domain to share their contribution. If you would like to discuss any questions or feedback, please contact the author.

Industrial Visit

Department of Food Technology, Bhai Gurdas Institute of Engineering and Technology, Sangrur organized an Educational Industrial Visit to Coca Cola Plant, Nabipur Punjab on July, 2022. An industrial visit has its own importance in the career of a student who is pursuing a professional degree.

It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at the college. The main objective of this visit was finding the live problem in the industry as well as its solutions.

Teachers Day Celebration

On the 5th of September, celebrated in India as teacher's day, a special programme was organized by the department of food technology (BGGI, Sangrur, Punjab) in auditorium. Teachers' Day celebration is a cherished occasion when we pay tribute to the dedicated educators who shape the future. This day is a reflection of our deep gratitude and respect for their unwavering commitment to nurturing young minds. The celebration includes heartfelt speeches, cultural performances, Games and the presentation of tokens of appreciation. It serves as a reminder of the invaluable role teachers play in our lives, guiding us towards Knowledge and wisdom. At Bhai Gurdas, we acknowledge their pivotal role and express our gratitude, for they are the pillars of our educational journey, lighting the path to success.

Webinar on Recent Advancements in Process and Food Engineering

We're thrilled to share the success of the recent seminar on "Recent Advancements in Process and Food Engineering," organized by the Department of Food Technology at BGGI Sangrur on 18 August 2022. This seminar was an enriching experience, shedding light on groundbreaking developments shaping the food industry.

Highlights of the Seminar:

- Engaging discussions on cutting-edge processing techniques optimizing food production.
- Insightful sessions exploring the role of technology in ensuring food safety and quality.
- Thought-provoking presentations on sustainable practices and their impact on food engineering.
- Interactive Q&A sessions, fostering knowledge exchange and collaboration among participants.

We extend our heartfelt gratitude to our esteemed speakers and participants for their valuable contributions, making this event a resounding success.
